WHAT MAKES ELIOS DIFFERENT

Practitioner-led

Strategy led by practitioners from Bain and Accenture.

Strategy tied to delivery

Architecture, model selection, governance, security, and cost.

Elios Insights

Specialist search, matching, and engagement in one place.

Convertible by design

Start on contract, with an option to convert to full-time. Capability stays with you.

SELECTED CLIENTS

beeline® Arthēa Brickwork CFGI Effectual Umbrage® Part of Bain & Company Go.AI PERPETUAL RESOURCE PARTNERS

AI Native talent + Forward Deployed Engineers, built to ship.

Practitioners who earn client trust, turn ambiguous needs into working systems, and deliver through a team.

WHAT AN FDE ENGAGEMENT LOOKS LIKE

One FDE or Pod

01

Scope with stakeholders

Stakeholder workshops into a scoped build plan.

02

Build and integrate

Agents, apps, and MCP connectors on your stack.

03

Ship to production

Evals, observability, and cost controls.

04

Hand it back

Your team owns it. Option to convert to full-time.

WHAT WE SCREEN FOR · CONSULTANT, ENGINEER, TEAMMATE

The FDE bar requires all three

Client-accountable consulting

Delivered for external clients who held them to the outcome.

Production engineering ownership

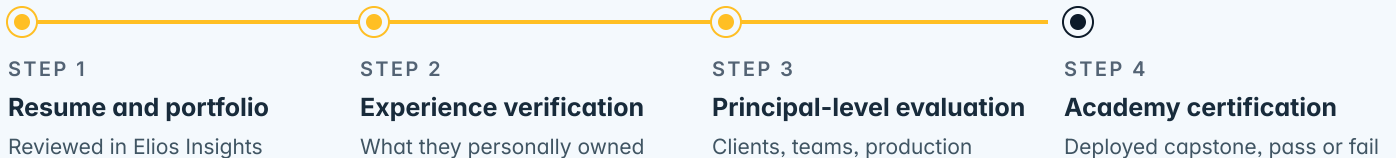

Proof of concept to production, and debugs what AI wrote.

Team delivery and AI fluency

Makes a cross-functional client team more effective.

Evidence before labels.

eliosai.com/how-we-screen-for-ai-native-talent

ELIOS ACADEMY · PROOF YOU CAN VERIFY

Public credential pages · Expire after one year

PREREQUISITE

Elios AI-native Certified

For people who work with models, skills, connectors, and agents in real workflows, and know where a human still has to decide.

Requires: Graded coursework on LLMs, skills, connectors, and agents.

EARNED BY SHIPPING

Forward Deployed Engineer

Coursework in client delivery and production AI, then a capstone built from a client brief.

Requires: A deployed app, its public repository, and an on-camera walkthrough, reviewed by an Elios practitioner.

Specialists are sourced in [Elios Insights](#), from a network of 300,000+.

Strong AI engineering creates credibility. Consulting judgment and team delivery make an FDE.
